| <ul style="list-style-type: none"><li>• Nozzle and nozzle adapter tip (PN 714)</li><li>• Utility knife</li></ul> | <ul style="list-style-type: none"><li>• Cut the nozzle</li><li>• Insert adapter tip</li><li>• Using the nozzle with the nozzle adapter tip will ensure the correct ratio of the 2-part urethane adhesive is injected. You will need to cut the nozzle and insert the adapter tip.</li></ul> <div data-bbox="776 459 1295 732" style="text-align: center;"></div> |

### Procedure

1. Using a utility knife, cut off the first millimeter of the nozzle. There is a line in the nozzle indicating where you should cut. See photo A.

photo A

2. Insert the nozzle adapter tip into end of nozzle. See photo B.
